

Learning Coach

The process of education in SVUSD Virtual Academy is a partnership between the student, teacher, and learning coach. The role of the learning coach is usually played by the student's parent. In general, the learning coach monitors student progress ensures the student's work is completed thoroughly. It is expected the a student's learning coach will provide the following:

Structure

The learning coach helps the student set and maintain a consistent, daily routine.

Organization

The learning coach assists the student with pacing and creating a weekly calendar of assignments.

Accountability

The learning coach ensures the student completes all learning activities and assignments on time.

Motivation

The learning coach provides encouragement and inspiration.

Communication

The learning coach communicates with teachers about their student's progress and encourages their student to communicate with the teacher to clarify questions.

Healthy Habits

The learning coach supports the creation of healthy habits of rest, nutrition, and exercise.

Reflection

The learning coach encourages student reflection and application of learned material.

Socialization

The learning coach provides opportunities for their student to interact and play with other kids.

Technology Management

The learning coach models, teaches, and enforces responsible technology use.

Assignment Assistance

The learning coach answer preliminary student questions about learning activities and encourages students when they are having trouble with an assignment.
