Workshops, Discussions and a
Small Research Project

- FREE for all students on the
free/reduced lunch program
with a low fee for others

- 100% Online so HSIP can remain
an exciting option with certainty
for students this Fall

Are you interested in exploring the health sciences and looking for something to do this Fall? - HSIP is an accessible, enriching and fun option for you!

In Fall 2020, we will give high school students an introduction to the academic, research and professional components of the health sciences. A key focus of HSIP will be to help students consider their future college experience and careers. Over the last year over 300 Southern CA high school students have been introduced to the health sciences field through HSIP. During 2019 and Spring 2020, our first 5 sessions took place at Cal State LA and the USC Health Sciences campus. In Summer 2020 we ran another four sessions, where over 160 students enrolled in the Zoom version of HSIP. During Fall 2020, HSIP will take place online through Zoom, so we can continue to offer this immersive opportunity to high school students.

- Engage in lectures from 11+ Science Professors/ PhD Grad Students from institutions including UCLA, USC and Cal State LA about their research as well as health professionals such as a doctor and dentist about their careers
- Prepare for college admissions in our counselor led workshop and engage in our career options and pathways workshops
- Work collaboratively on a small group research project to build science inquiry and public communication skills
- Be Part of Community That Values Learning and Mentorship!
