

**THIS ESSA PROVISION IS ADDRESSED BELOW:**

We plan to take advantage of federal transferability rules to move our Title IV, Part A funding into Title II, Part A to support professional development, which continues to be an important need for SVUSD. This funding will help support teacher training on MTSS, specifically in the areas of behavior and social-emotional. This will support the district's effort to improve school climate and address the needs of student groups identified by the Dashboard, specifically in chronic absenteeism and suspension.
