IPM statement

It is the goal of Saddleback Valley Unified School District to implement IPM by focusing on long-term prevention or suppression of pests through accurate pest identification, by frequent monitoring for pest presence, by applying appropriate action levels, and by making the habitat less conducive to pests using sanitation and mechanical and physical controls. Pesticides that are effective will be used in a manner that minimizes risks to people, property, and the environment, and only after other options have been shown ineffective.

Our pest management objectives are to: *(Example: Focus on long-term pest prevention)*

To respond to pest control problems efficiently while reducing the negative impact of pest control chemicals.

In addition to the IPM Coordinator, other individuals who are involved in purchasing, making IPM decisions, applying pesticides, and complying with the Healthy Schools Act requirements, include:

Name and/or Title	Role in IPM program

- Pest management services are contracted to a licensed pest control business.
Pest Control Business name(s): Safety 1st Inc., Dewey Pest Control, OC Vector Control, Bee Busters.
