

ADVANCED INTERDISCIPLINARY SCIENCE FOR SUSTAINABLE AGRICULTURE

MISSION VIEJO HIGH SCHOOL

*Develop your potential for
premier leadership, personal
growth and career success
through agricultural education.
Learn by doing!*

COURSE HIGHLIGHTS

- Demonstrations
- Lab experiments
- Career based competitions
- Hands-on skill development
- UC honors course
- Professional certifications

COURSE DESCRIPTION

Combining interdisciplinary laboratory science and research within agricultural management principles, students will design systems and experiments to solve agricultural issues currently facing the industry. Students will connect the products created in this class with industry activities to link real-world encounters and implement skills demanded by both colleges and careers. The course culminates with an agriscience experimental research project in which students design and conduct an experiment to solve a relevant issue.

**Requires Agriculture Teacher Rec and Prereq Course: Agriculture and Soil Chemistry*

This course
meets the
D
requirements for
admission to UC
and CSU
