

Biology Workshops for Kids

Bionerds offers fun, hands-on biology workshops for kids in many cities throughout Orange County. We are honored to be voted Orange County's Best Science Camp for multiple years from 2016-2021 by Parenting OC Magazine families. All of our teachers have degree(s) in biology or other related sciences/experiences.

Fall 2022 Session 1: Human Body: We are Super! (Part II)

Come and join this fun and hands-on biology workshop for kids! Learn about our amazing human body from your brain, muscles, skin, bones, and more. Your child will be up close with fresh/preserved animal organs, perform many dissections, and engage in cool biology activities using lab equipment/tools. **No need to take Human Body Part I to take this class.**

Fall 2022 Session 2: Spooky Science with Boo-ionerds!

Come and join us on a journey where we learn about some creepy and crawly topics, from animals like bats and spiders to things like skeletons. Your child will be up close and personal with the live/fresh/preserved organisms, perform some dissections and engage in cool biology experiments using lab equipment/tools.
