

STRATEGIC Kids®

at Melinda Heights

Session 1

Session 2

Our Origami FUNDamentals program will introduce your child to the mesmerizing Japanese art form and culture! Our expert instructors will guide your little ones through each step, ensuring they master the precise folds and intricate techniques to create stunning origami masterpieces they can take home at the end of each class. From adorable animals like dogs and cats to objects like samurai helmets and ninja stars, they'll bring captivating creations to life!

Watch your child's imagination take flight with Modular and Action Origami! During this program, their instructor teaches them how to create their very own action models using the mesmerizing technique of modular origami - a style involving many sheets of paper to create a larger model. The possibilities are endless, from adorable Sumo wrestlers to the iconic Pikachu, spinning tops, to transforming ninja stars!

Origami teaches

- Physics Concepts
- Structure
- Cognitive Skills
- Trial and Error
- Concentration
- Fractions
