

**STUDENTS**

**ADMINISTERING MEDICATION AND MONITORING HEALTH CONDITIONS**

**Definitions**

Authorized health care provider means an individual who is licensed by the State of California to prescribe or order medication, including, but not limited to, a physician or physician assistant. (Education Code 49423; 5 CCR 601)

Other designated school personnel means any individual employed by the district, including a nonmedical school employee, who has volunteered or consented to administer the medication or otherwise assist the student and who may legally administer the medication to the student or assist the student in the administration of the medication. (5 CCR 601, 621)

Medication may include not only a substance dispensed in the United States by prescription, but also a substance that does not require a prescription, such as over-the-counter remedies, nutritional supplements, and herbal remedies. (5 CCR 601)

Epinephrine auto-injector means a disposable delivery device designed for the automatic injection of a premeasured dose of epinephrine into the human body to prevent or treat a life-threatening allergic reaction. (Education Code 49414)

Anaphylaxis means a potentially life-threatening hypersensitivity to a substance, which may result from an insect sting, food allergy, drug reaction, exercise, or other cause. Symptoms may include shortness of breath, wheezing, difficulty breathing, difficulty talking or swallowing, hives, itching, swelling, shock, or asthma. (Education Code 49414)

**Notifications to Parents/Guardians**

At the beginning of each school year, the Superintendent or designee shall notify parents/guardians of the options available to students who need to take prescribed medication during the school day and the rights and responsibilities of parents/guardians regarding those options. (Education Code 49480)

In addition, the Superintendent or designee shall inform the parents/guardians of any student on a continuing medication regimen for a nonepisodic condition of the following requirements: (Education Code 49480)

1. The parent/guardian is required to inform the school nurse or other designated employee of the medication being taken, the current dosage and the name of the supervising physician.
2. With the parent/guardian's consent, the school nurse or other designated employee may communicate with the student's physician regarding the

medication and its effects and may counsel school personnel regarding the possible effects of the medication on the student's physical, intellectual, and social behavior, as well as possible behavioral signs and symptoms of adverse side effects, omission, or overdose.

**Parent/Guardian Responsibilities**

The responsibilities of the parent/guardian of any student who may need medication during the school day shall include, but are not limited to:

1. Each school year, providing parent/guardian and authorized health care provider written statements as described in the sections "Parent/Guardian Statement" and "Health Care Provider Statement" below. In addition, the parent/guardian shall provide a new authorized health care provider's statement if the medication, dosage, frequency of administration, or reason for administration changes. (Education Code 49414.5, 49414.7, 49423, 49423.1; 5 CCR 600, 626)
2. If the student is on a continuing medication regimen for a nonepisodic condition, informing the school nurse or other designated certificated employee of the medication being taken, the current dosage, and the name of the supervising physician. (Education Code 49480)
3. If the student suffers from epilepsy, notifying the principal or designee whenever the student has had an emergency antiseizure medication administered to him/her. (Education Code 49414.7)
4. Providing medications in properly labeled, original containers along with the authorized health care provider's instructions. For prescribed or ordered medication, the container also shall bear the name and telephone number of the pharmacy, the student's identification, and the name and phone number of the authorized health care provider. (5 CCR 606)

**Parent/Guardian Statement**

When district employees are to administer medication to a student, the parent/guardian's written statement shall:

1. Identify the student
2. Grant permission for an authorized district representative to communicate directly with the student's authorized health care provider and pharmacist, as may be necessary, regarding the health care provider's written statement or any other questions that may arise with regard to the medication
3. Contain an acknowledgment that the parent/guardian understands how district employees will administer the medication or otherwise assist the student in its administration
4. Contain an acknowledgment that the parent/guardian understands his/her

responsibilities to enable district employees to administer or otherwise assist the student in the administration of medication, including, but not limited to, the parent/guardian's responsibility to provide a written statement from the authorized health care provider, to ensure that the medication is delivered to the school in a proper container by an individual legally authorized to be in possession of the medication, and to provide all necessary supplies and equipment

5. Contain an acknowledgment that the parent/guardian understands that he/she may terminate the consent for the administration of the medication or for otherwise assisting the student in the administration of medication at any time

In addition to the requirements in items #1-5 above, if a parent/guardian has requested that his/her child be allowed to carry and self-administer prescription auto-injectable epinephrine or prescription inhaled asthma medication, the parent/guardian's written statement shall: (Education Code 49423, 49423.1)

1. Consent to the self-administration
2. Release the district and school personnel from civil liability if a student suffers an adverse reaction as a result of self-administering the medication

In addition to the requirements in items #1-5 above, if a parent/guardian wishes to designate an individual who is not an employee of the district to administer medication to his/her child, the parent/guardian's written statement shall clearly identify the individual and shall state:

1. The individual's willingness to accept the designation
2. That the individual is permitted to be on the school site
3. Any limitations on the individual's authority

**Health Care Provider Statement**

When any district employee is to administer prescribed medication to a student, or when a student is to be allowed to carry and self-administer auto-injectable epinephrine or prescribed diabetes or asthma medication during school hours, the authorized health care provider's written statement shall include:

1. Clear identification of the student (Education Code 49414.7, 49423, 49423.1; 5 CCR 602, 626)
2. The name of the medication (Education Code 49414.7, 49423, 49423.1; 5 CCR 602, 626)
3. The method, amount, and time schedules by which the medication is to be taken (Education Code 49414.7, 49423, 49423.1; 5 CCR 602, 626)

4. If a parent/guardian has requested that his/her child be allowed to self-administer medication, confirmation that the student is able to self-administer the medication (Education Code 49423, 49423.1; 5 CCR 602)
5. For medication that is to be administered on an as-needed basis, the specific symptoms that would necessitate administration of the medication, allowable frequency for administration, and indications for referral for medical evaluation
6. Possible side effects of the medication
7. Name, address, telephone number, and signature of the student's authorized health care provider

When authorizing a district employee to administer emergency antiseizure medication to a student, the authorized health care provider's written statement shall also include the following: (Education Code 49414.7; 5 CCR 626)

1. Detailed seizure symptoms, including frequency, type, or length of seizures that identify when the administration of the medication becomes necessary
2. Any potential adverse responses by the student and recommended mitigation actions, including when to call emergency services
3. A protocol for observing the student after a seizure, including, but not limited to, whether he/she should rest in the school office or return to his/her class and the length of time he/she should be under direct observation
4. A statement that following a seizure, a school administrator or other staff member shall contact the school nurse and the student's parent/guardian to continue the observation plan

**District Responsibilities**

The school nurse or other designated school personnel shall:

1. Administer or assist in administering medications in accordance with the authorized health care provider's written statement
2. Accept delivery of medications from parents/guardians and count and record them upon receipt. Maintain a hard copy list of school employees who are authorized to administer medications with their name, signature and initials.
3. Maintain a list of students needing medication during the school day, including those authorized to self-administer medications, and note on the list the type of medication and the times and dosage to be administered
4. Maintain for each student a medication log which may:
  - A. Specify the student's name, medication, dose, method of administration, time of administration during the regular school day, date(s) on which the

student is required to take the medication, and the authorized health care provider's name and contact information

- B. Contain space for daily recording of the date, time, and amount of medication administered, and the signature of the individual administering the medication
- 5. Maintain for each student a medication record which may include the authorized health care provider's written statement, the parent/guardian's written statement, the medication log, and any other written documentation related to the administration of medication to the student
- 6. Ensure that student confidentiality is appropriately maintained
- 7. Coordinate and, as appropriate, ensure the administration of medication during field trips and other school-related activities
- 8. Report to a student's parent/guardian and the site administrator any refusal by the student to take his/her medication
- 9. Keep all medication to be administered by the district in a locked drawer or cabinet
- 10. As needed, communicate with a student's authorized health care provider and/or pharmacist regarding the medication and its effects
- 11. Counsel other designated school personnel regarding the possible effects of a medication on a student's physical, intellectual, and social behavior, as well as possible behavioral signs and symptoms of adverse side effects, omission, or overdose
- 12. Ensure that any unused, discontinued, or outdated medication is returned to the student's parent/guardian at the end of the school year or, if the medication cannot be returned, dispose of it in accordance with state laws and local ordinances
- 13. Provide immediate medical assistance if needed and report to the site administrator, the student's parent/guardian, and, if necessary, the student's authorized health care provider any instance when a medication is not administered properly, including administration of the wrong medication or failure to administer the medication in accordance with authorized health care provider's written statement

**Emergency Epinephrine Auto-Injectors**

The Superintendent or designee shall provide epinephrine auto-injectors to school nurses or other employees who have volunteered to administer them in an emergency and have received training. The school nurse, or a volunteer employee when a school nurse or physician is unavailable, may administer an epinephrine auto-injector to provide emergency medical aid to any person suffering, or reasonably believed to be

suffering, from potentially life-threatening symptoms of anaphylaxis at school or a school activity. (Education Code 49414)

At least once per school year, the Superintendent or designee shall distribute to all staff a notice requesting volunteers to be trained to administer an epinephrine auto-injector and describing the training that the volunteer will receive.

The principal or designee at each school may designate one or more volunteers to receive initial and annual refresher training, which shall be provided by a school nurse or other qualified person designated by an physician and surgeon authorized pursuant to Education Code 49414 and shall be based on the standards developed by the Superintendent of Public Instruction (SPI). Written materials covering the required topics for training shall be retained by the school for reference. (Education Code 49414)

A school nurse or other qualified supervisor of health, or a district administrator if the district does not have a qualified supervisor of health, shall obtain a prescription for epinephrine auto-injectors for each school from an authorized physician and surgeon. Such prescription may be filled by local or mail order pharmacies or epinephrine auto-injector manufacturers. Elementary schools shall, at a minimum, be provided one adult (regular) and one junior epinephrine auto-injector. Secondary schools shall be provided at least one adult (regular) epinephrine auto-injector, unless there are any students at the school who require a junior epinephrine auto-injector. (Education Code 49414)

If an epinephrine auto-injector is used, the school nurse or other qualified supervisor of health shall restock the epinephrine auto-injector as soon as reasonably possible, but no later than two weeks after it is used. In addition, epinephrine auto-injectors shall be restocked before their expiration date. (Education Code 49414)

Information regarding defense and indemnification provided by the district for any and all civil liability for volunteers administering epinephrine auto-injectors shall be provided to each volunteer and retained in his/her personnel file. (Education Code 49414)

A school may accept gifts, grants, and donations from any source for the support of the school in carrying out the requirements of Education Code 49414, including, but not limited to, the acceptance of epinephrine auto-injectors from a manufacturer of wholesaler. (Education Code 49414)

The Superintendent or designee shall maintain records regarding the acquisition and disposition of epinephrine auto-injectors for a period of three years from the date the records were created. (Business and Professions Code 4119.2)
