

Site Meeting Notes

Meeting Date: 12/13/17

Subject: Glen Yermo ES Meeting Notes

Meeting Location: Glen Yermo ES

Project: SVUSD Facilities Master Plan 2019

PBK Project No.: 17331

Site:

- Parking lot needs to have cameras
- Could add a few more cameras on the entire site also
- Additional parking spaces to provide a space for parents to park
- Repair holes in the fields and new grass
- New equipment for physical education
- Need more shade for outdoor dining
- Could use extra paint on exterior
- Repair stucco damage
- Many drainage issues throughout site
- HVAC system does not work well
- Restrooms have clogged drains
- Upgrade light fixtures
- Need to upgrade the drinking fountains
- Many restrooms need to be upgraded
- Restroom doors do not exit to the outside
- Plaster in the restrooms is bubbling
- Would be good to have a fence at the bottom of the slope at the playground
- Could use an adaptive swing set and playground equipment
- Outdoor restrooms would be nice
- Need shade at Kindergarten area
- Gate at front is loud
- Emergency lighting in some classrooms do not work
- Need a higher fence at TLC area
- Exterior outlets would be ideal outside MPR
- Exterior lights at MPR are not on at night
- Would be good to have better signage for parking
- Need an electric marquee
- Security would be ideal to have a button with a specific noise
- Hallway next to the library needs a tack-able wall surface (ran out of money at the last Bond)

Next Generation Classroom:

- Would like consistency with projectors
- Need to have the ability to connect the computer to the projector
- Suggests storage behind the marker boards (teaching walls)
- There is a big hallway that is underutilized (16'-18' wide) could have lockable storage
- Need bookshelves, current bookshelves have been bought by teachers
- More flexible seating
- Teachers would like to pick write-able desks
- STEM is critical
- Would like skylights for natural lighting
- Need more storage
- Would like better and more flexible furniture
- Would like to see more 3D printing in maker space
- Homework, chess, art, robotics and art clubs
- Would like an outdoor amphitheater
- Computer lab converted into classroom (no empty classroom)

Technology:

- Could use a better sound system
- Would be ideal to have a projector in center on swivel

Support Space:

- Do not have a projector or screen
- Would like an area for the parents to use computer (secure)
- There is no room for an innovation lab
- Would love to do more plays but can't store props
- Need more/newer shelving in library. Close to 13,000 books
- Copy machines are way outdated
- Would be ideal to lock front door with push of button from office
